TESTIMONIALS

“Media and communications at MUM is an excellent program. I am in the film concentration and couldn’t be happier. The classes are all small, so you receive a lot of personal attention from the teachers. The block system gives you a lot of time to focus solely on one project, so you can complete your projects in a short amount of time. I love being a film student at MUM — everyone is so positive and willing to help you in any creative endeavor you wish to pursue. I would highly recommend this program to anyone interested in a career in film.”

— Chanside Thomson (Auckland, New Zealand)

“Create A Major Work

This one-year program gives you the time, equipment, and expertise to create outstanding projects that make an impact in the professional world. You will work in a supportive studio environment while deepening your knowledge of filmmaking through advanced courses in the art of the story, screenwriting, and cinematography. You will also work in the field, experiencing the challenges that arise on a location shoot. A course on the media market will teach you how to get your work noticed. We strongly encourage you to collaborate with companies and organizations outside of the University to gain real-world experience working with clients and financial backers.

Equipment

In the digital revolution, all physical media are being reborn in new forms. Harness the power of digital media to get your work seen instantly by the largest number of people.

**Film Making**

Learn the art of storytelling, key film production skills, editing, and special effects — all the fundamentals of filmmaking.

**Diverse Genres** — make documentaries, dramas, web series, stop-motion animations, music videos, and more.

**Project-based Learning** — research a story, write the screenplay, break it down into a shooting script, then bring it to life on location or in the studio.

**New Technology** — work with top-of-the-line film equipment backed by excellent technical support.

**Wide Range of Careers** — gain practical, hands-on experience as a writer, director, camera operator, producer, set designer, editor — all of which prepare you for a job in the media industries.

**Professional Portfolio** — take project-based courses that help you create an impressive portfolio by the time you finish your degree.

**Mission**

We train students to produce well-crafted media projects that demonstrate creativity and originality. Our Consciousness-Based Tradition provides an ideal platform to achieve this goal since it develops the creative intelligence of each student. We strive to produce students who will have an impact in the creative industries and transform the world according to the needs and aspirations of the global community.
