REFERENCES

The following pages contain a complete reference list for the scientific research papers contained in Volumes 1, 2, 3, 4, and 5 of Scientific Research on Maharishi’s Transcendental Meditation and TM-Sidhi Programme—Collected Papers. (Volume 6 is currently in press.)

The numbers before the references refer to the designated numbers of the papers as they are reprinted in the first five volumes of Collected Papers, and as they have been referenced throughout the sections of this book.

When a paper has previously been published in a professional journal or other publication, the reference to that publication is cited. In all other cases, details of the institutes or universities at which the research was conducted and conferences at which the results were presented are given. When the findings contained in one of the papers have been published in more than one form, such as an earlier abstract, this is also indicated in the reference to that paper.
