**Transcendental Meditation**

The Unified Field is the fountainhead of Natural Law, since all the Laws of Nature expressed in the various sciences and disciplines are derived from the Unified Field, the holistic transcendental field underlying all manifest creation. Superstring Theory, the most recent and successful Unified Field Theory, is the theoretical embodiment of the Unified Field as the fundamental source of all natural laws. The Unified Field is the ultimate source of all Natural Law.

**LITERATURE**

Transcendental Meditation allows the conscious mind to identify itself with the Unified Field of all the Laws of Nature, the total potential of Natural Law, in Transcendental Consciousness. The Unified Field is the source of all mental activity and therefore a field of pure intelligence. Consciousness alone is fully self-referral, since only consciousness has the ability to know itself in a complete unification at the level of the Planck scale (10^-33 cm) where all the various force and gravitational interactions) as well as the various matter fields. In the last few decades it has become clear that all the various forces and fields in the physical universe arise from the Unified Field. The Unified Field is the source of all mental activity and therefore a field of pure intelligence.

**State of Being**

Self-Referral State of All-Knowing Consciousness

**Total Invincibility**

The layer of Total Invincibility is the source of all mental activity and therefore a field of pure intelligence.
